

# Psychiatric Rehabilitation

## Empowering People in Communities (EPIC)

EPIC assists adults who struggle with serious, persistent mental health diagnoses develop the necessary skills to overcome the functional impairments they experience as a result of their mental health.

### About EPIC:

EPIC is a skills development program designated for adults 18 years and older to develop the necessary skills to overcome functional impairments that are experiencing within the following areas:

- Social
- Independent Living
- Education
- Vocation
- Wellness/Illness Management

Our program works with individuals and their treatment supports with the intention of promoting functional living, working and socializing in their communities of choice.

### Admission Requirements:

To receive psychiatric rehabilitation services through EPIC, individuals must:

- be 18 years and older with a diagnosis of a serious and persistent mental health disorder.
- have identified functional impairments within one or more of the following domains: social; independent living; education; vocation; wellness/illness management.
- have a completed and signed referral recommending psychiatric rehabilitation services by an LPHA agent (Licensed Practitioner of the Healing Arts).
- be a willing participant in the service.
